

This Allan Thembo

my name is Allan Thembo i am a beginner for markdown i have just tried out this [Markdown Tutorial Website](#).

I hope you enjoy my session

C++ Example for Recursion

```
#include <iostream>

int sum(int n)
{
    if (n > 2 )
        return n;
    else
        return n + sum (n-1)
}

int main()
{
    std::cout << "sum from one to 10 is "
                << sum (10)>> std::endl
}
```

Markdown is simple but powerful way that will help me make documentation for my code

I will be learning more from [Markdown Tutorial Website](#), and there is an [Online Markdown Editor](#) i will be using in addition to tutorials.
